thermofuse laminate (TFL)

Pricing shown in this price list applies only to TFL finishes currently included in the DeskMakers finish collection. For the most accurate finish list please see **deskmakers.com**.

high pressure laminate (HPL)

- Pricing shown in this price list applies only to non-premium HPLs as follows:
- Wilsonart: Solids, Woodgrains, and Abstracts in Matte (-60) finish,
 - Formica: Color Portfolio, Woodgrains, and Patterns in Matte (-58) finish
 - Pionite: Solids, Woodgrains, and Abstracts in Suede (N) finish
 - Arborite: Solids, Woodgrains, Textures and Abstracts in Matte (CA) finish
 - Nevamar: Solids, Woodgrains, Stones and Abstracts in ARP (-T) finish

A minimum charge of \$546 net per HPL color will be applied to each order.

Call customer service for pricing for all other HPLs.

Additional lead times required for HPL orders depending on material availability and order complexity.

high pressure laminate (HPL) pricing chart

Most DeskMakers product is made of Thermofuse laminate (TFL). As such, there is an upcharge for ordering product in high pressure laminate (HPL). This upcharge varies based on the product and the size of the HPL order.

Please note that only the portion of the order in HPL will be calculated to determine the level of HPL upcharges.

HPL is always available with DeskMakers standard 2MM edgebanding. Special order matching PVC 2MM edgebanding may be available for orders \$25,000 List or larger, call customer service for pricing.

standard pulls

Pulls are included on all drawers and cabinet doors for no upcharge.

*The 125SN/BL pull is 7.5" long. On lateral file drawers and larger cabinet doors a longer 12.5" pull in the same style will be used. This may be identified as a "127SN/BL" pull on your acknowledgment.
* 105 and 107 pulls are only available in the silver nickel 'SN' finish.

details

- 1-1/8" thick thermofuse laminate (TFL) tops and end panels for strength and durability.
- 2mm PVC edgebanding.
- Combine up to two finishes on a single unit at no additional charge. See website for laminate finish options.
- Wood grain on tops runs from side to side on returns and bridges, up to 60", to match desk and credenza tops. Grain runs horizontally on modesty panels. Due to the nature of woodgrain materials - grain pattern may not align on adjoining tops or drawer fronts and doors on the same unit.
- Drawers with 46mm height ball bearing extension slides for smooth and instant access to all contents.
- Maple print drawer interiors standard. Solid wood drawer interior upgrade available.
- Core removable face locks standard on pedestals, lateral files and file centers. Locks optional on all units with hinged doors, such as hutches and storage cabinets.
- Hardware pulls standard on all drawers. If no pull is specified, 101-BL will be provided. See page 7 for complete selection of pulls.
- Adjustable leveling glides on all units, except hutches and overheads.
- Custom sizes and configurations may be available. Please contact quoting department for pricing.

SPX

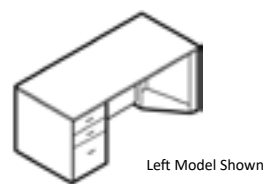

details

- 1-1/8" thick thermofuse laminate (TFL) tops for strength and durability.
- 2mm PVC edgebanding.
- Wood grain on tops runs from side to side on returns and bridges, up to 60", to match desk and credenza tops. Grain runs vertically on pedestals and false pedestals, and runs horizontally on modesty panels. Due to the nature of woodgrain materials - grain pattern may not align on adjoining tops or drawer fronts and doors on the same unit.
- Pedestal-supported construction with recessed inset modesty panels on all desks.
- False (open) pedestal on single pedestal desks can be used for CPU storage.

Milano

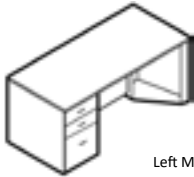

details

- 1-1/8" thick thermofuse laminate (TFL) tops for strength and durability.
- 2mm PVC edgebanding. Wood edge tops overhang the chassis by the thickness of the edge profile, increasing the overall width and depth. Sizes shown are nominal. (Width of units with group C edge detail shown as 72" is actually 74.5".)
- Wood grain on tops runs from side to side on returns and bridges, up to 60", to match desk and credenza tops. Grain runs vertically on pedestals and false pedestals, and runs horizontally on modesty panels. Due to the nature of woodgrain materials - grain pattern may not align on adjoining tops or drawer fronts and doors on the same unit.
- Pedestal-supported construction with recessed inset modesty panels on all desks.
- Standard with 1/2" reveal line in silver metallic below tops and on pedestal base. Optional black or white reveal for no additional charge.
- False (open) pedestal on single pedestal desks can be used for CPU storage.
- Drawers with 46mm height ball bearing extension slides for smooth and instant access to all contents.
- Maple print drawer interiors standard. Solid wood drawer interior upgrade available.
- Adjustable leveling glides on all units, except hutches and overheads.
- Combine up to two finishes on a single unit at no additional charge. See website for laminate finish options.
- Core removable face locks standard on pedestals, lateral files and file centers. Locks optional on all units with hinged doors, such as hutches and storage cabinets.
- Hardware pulls standard on all drawers. If no pull is specified, 101-BL will be provided. See page 7 for complete selection of pulls. There is no upcharge for premium pulls on items in the Milano collection.
- On hutches, two center doors are wider than the two outer doors.
- Custom sizes and configurations may be available. Contact quoting department for pricing.

Ascend

details

- Height adjustable casegoods collection with styles to co-ordination with Convergence, SPX and Milano offices.
- 1-1/8" thick thermofuse laminate (TFL) tops and end panels for strength and durability.
- 2mm PVC edgebanding.
- Tops also available in MDF knife edge and plywood with raw edge.
- Combine up to two finishes on a single unit at no additional charge. See website for laminate finish options.
- Wood grain on tops runs from side to side on returns and bridges, up to 60", to match desk and credenza tops. Grain runs horizontally on modesty panels. Due to the nature of woodgrain materials - grain pattern may not align on adjoining tops or drawer fronts and doors on the same unit.
- Drawers with 46mm height ball bearing extension slides for smooth and instant access to all contents.
- Maple print drawer interiors standard. Solid wood drawer interior upgrade available.
- Core removable face locks standard on pedestals, lateral files and file centers. Locks optional on all units with hinged doors, such as hutches and storage cabinets.
- Hardware pulls standard on all drawers. If no pull is specified, 101-BL will be provided. See page 7 for complete selection of pulls.
- Adjustable leveling glides on all units.
- Custom sizes and configurations may be available. Please contact quoting department for pricing.

Locking Casters

The Hover Lift height adjustable bases are available with optional locking casters. Casters increase the overall table height by 2".

External Safety Sensor

An External Safety Sensor is able to detect even the smallest deformation. When a collision or restriction of movement is detected, the External Safety Sensor triggers the motors to move in the opposite direction to release the pinched obstacle. The External Safety Sensor can be added to the Hover Lift bases after installation. AC-DRBK-OMT for \$349.

All Hover electric height adjustable bases are equipped with Intelligent System Protection (ISP). ISP is used to protect base motors, control boxes and internal components from damage resulting from collision or restriction of movement. The ISP is not intended for protection of the end user, and is less sensitive than the External Safety Sensor.

The Ascend height adjustable casegoods partially conceal the height adjustable mechanism supporting the quiet and easy transition to standing enabling the healthful rotation of working postures. Using height adjustability enables the user to adjust the worksurface height to the working posture that fits best. Multiple styles are available with Ascend. Private offices can be configured in a variety of ways to meet many functional and aesthetic requirements.

base shroud

Base shrouds create a new aesthetic, while still coordinating with other DeskMakers collections.

inline desk shell

Inline desk shell coordinates with the Convergence styling.

breakfront desk shell

Breakfront desk shell coordinates with the SPX styling.

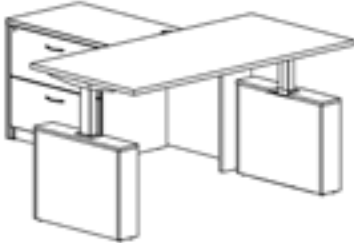

breakfront desk shell

Adding a worksurface with reveal on the breakfront desk shell coordinates with the Milano styling.

configurations

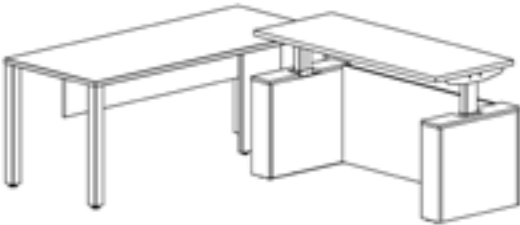

Multiple configurations can be created using base shrouds, storage in combination with components from Convergence, SPX, Milano, Synapse and Teamworx collections.

corner detail

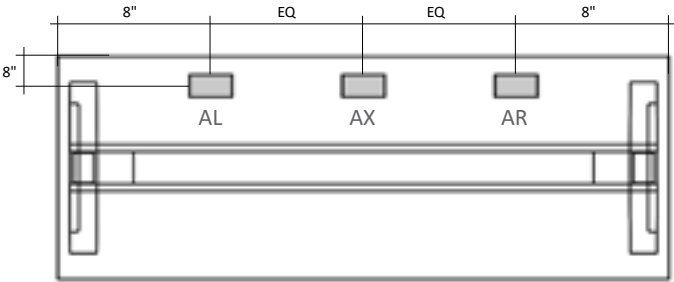

A visible frame will be visible on the surface of the table top when solid wood edges are specified. Color will be matched to table top finish, however slight differences in shade and grain may be evident.

Solid wood edges are not available in white, black or solid grey.

grommet locations

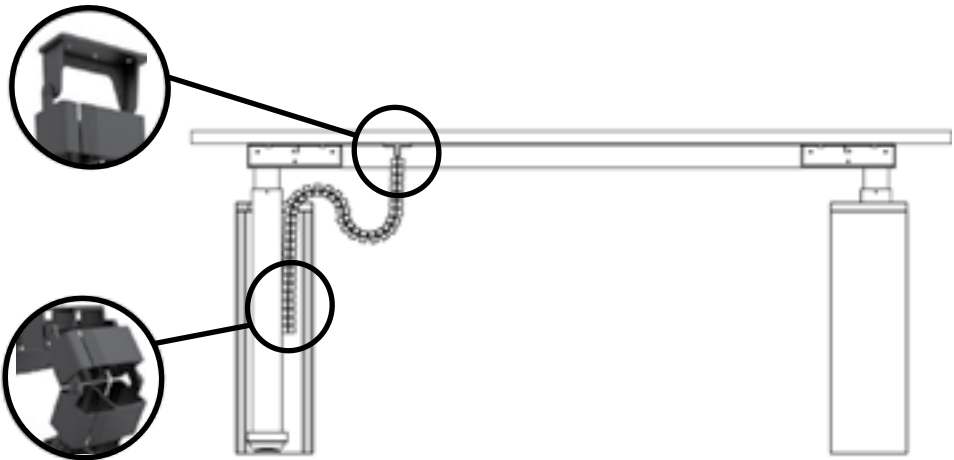

grommet locations

Three grommet locations are available on Ascend worksurfaces. Grommets are placed 8" on center from the edge opposite the user edge. "AX" is centered on the length of the worksurface. "AL" and "AR" (middle left and middle right) are inset 8" from either side. This placement is appropriate for 2 1/2" round, or 2 1/4" x 3 3/4" rectangular pass-through grommets. For other electrical options please contact the design and quoting department.

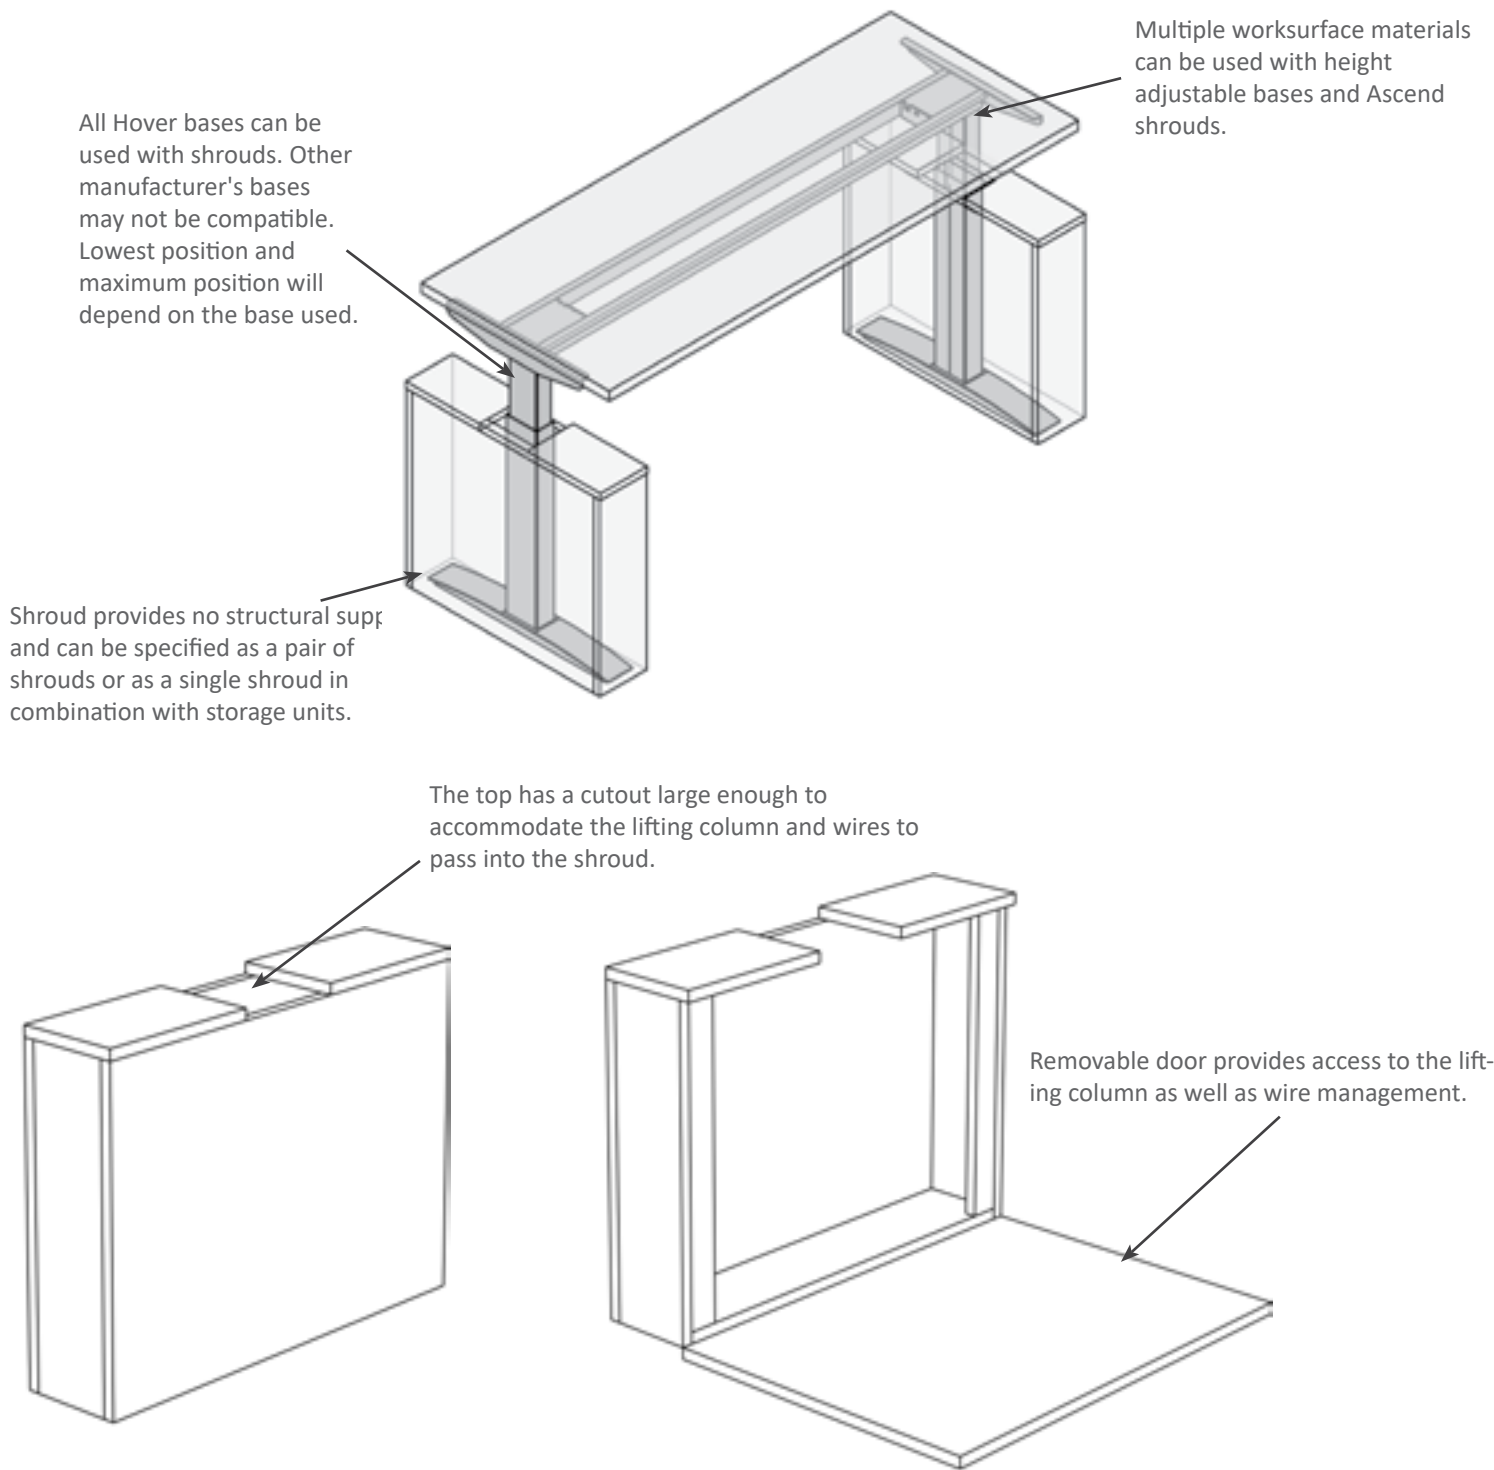

cable spine wire manager

The cable spine wire manager is 50 inches long, with removable links. Includes a desk mount bracket and metal base plate that can be detached for maximum flexibility. Available in black, white and silver. Links are 1-1/4" by 2-1/2".

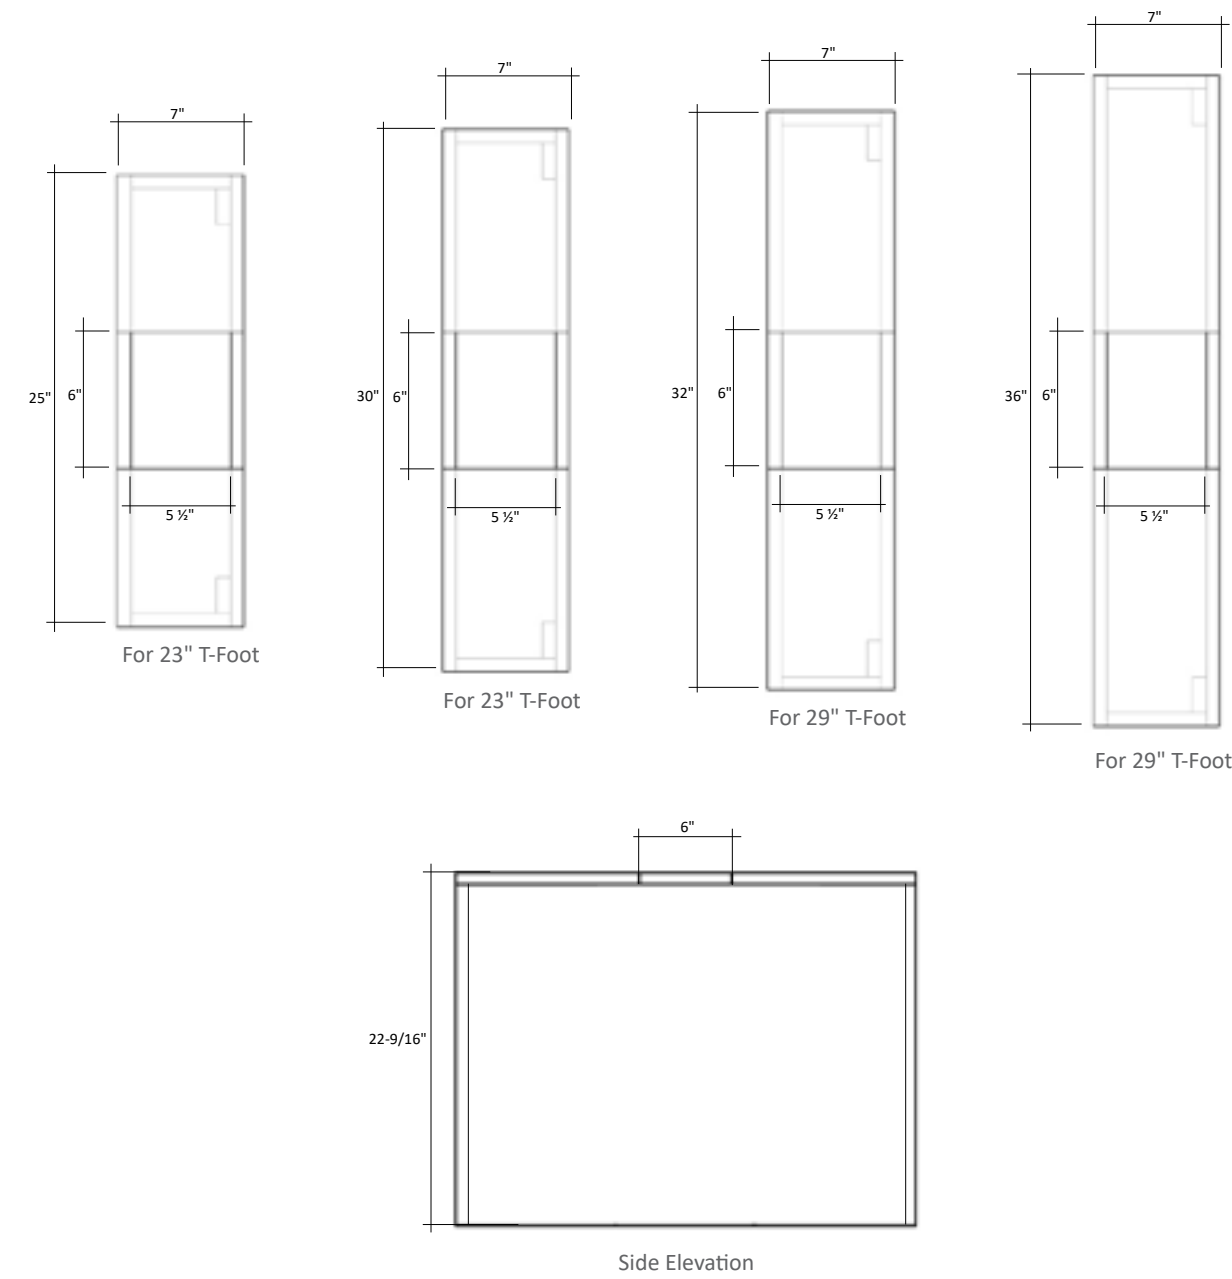

base shrouds

A shroud is an aesthetic cover which conceals the major portion of the leg and the T-foot to provide a sophisticated aesthetic alternative to the standard exposed metal base set. All components are specified separately. Base shrouds are available in both standard and premium TFL with 2mm PVC edgebanding.

dimensions

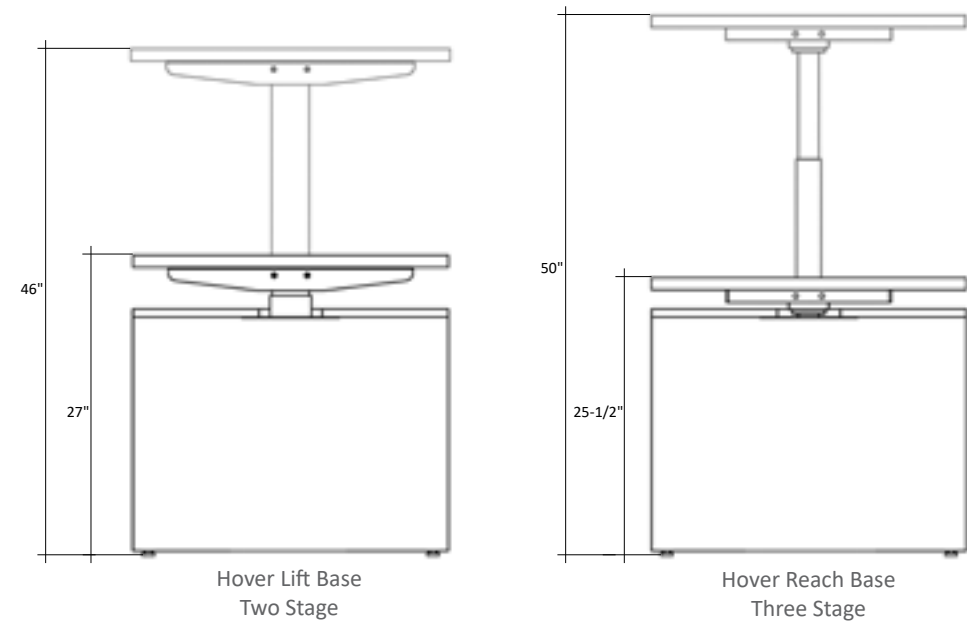

Shrouds are available in 3 depths, 25", 30" and 36". The 30" and 36" are used for desk applications and the 25" for return, bridge or credenza applications.

base shrouds

minimum and maximum desk heights

Shrouds are 22-9/16" high. This allows the height adjustable bases to fully lower to their shortest height, which is necessary to reset the base. Leveler adds an additional 1/2" height.

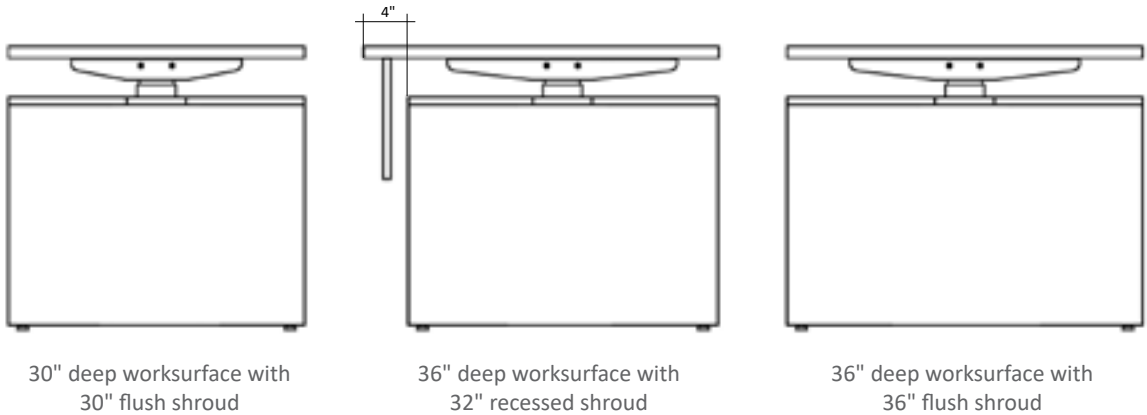

overhang

In the installed position the minimum overhang of the worksurface when using the Hover Boost or Reach Base is 2", a larger overhang is possible. The base shroud and combination pedestal can be inset under the worksurface more, but all modesty panels are sized assuming this positioning. For desks 78" or larger an extension kit should be used to achieve the minimum overhang shown below.

shroud configurations

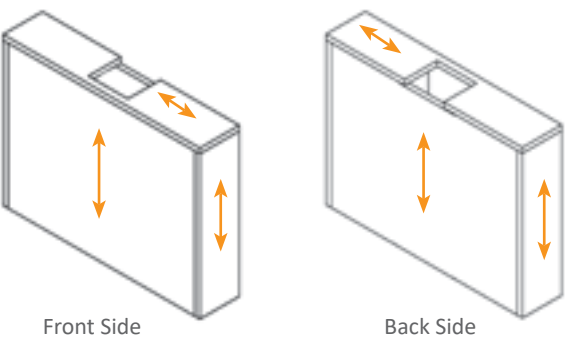

Base shrouds can be flush with the worksurface or recessed. The flush configuration consists of equal depth worksurface and base shroud. The recessed configuration consists of a 36" deep worksurface with a 32" deep shroud.

With the recessed configuration, the height adjustable base and base shroud are not centered on the table top.

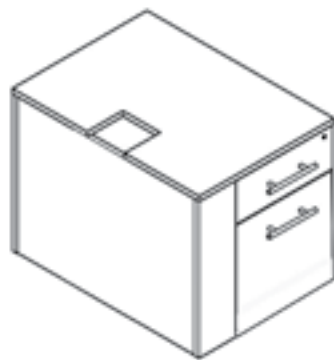

grain direction

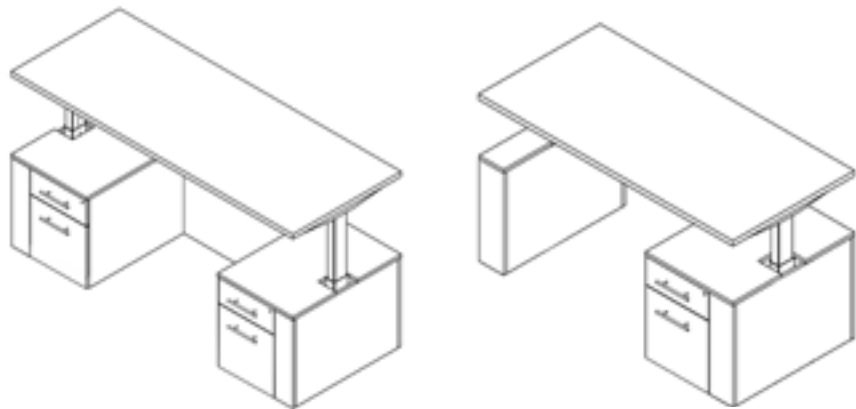

combination pedestal

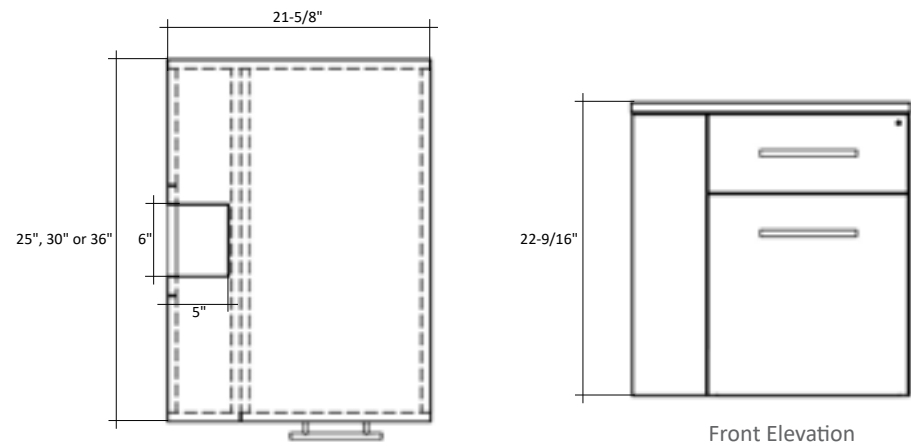

The combination pedestal conceals a major portion of the height adjustable column and the entire T-foot. It also provides the standard size box/file storage within a single unit. Available in three depths, 25", 30" and 36" to correspond with the base shroud sizes.

Combination pedestal can be specified for both right and left hand sides, together or in combination with a base shroud.

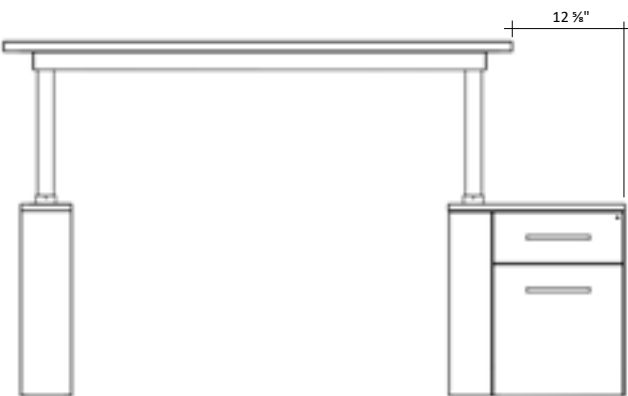

dimensions

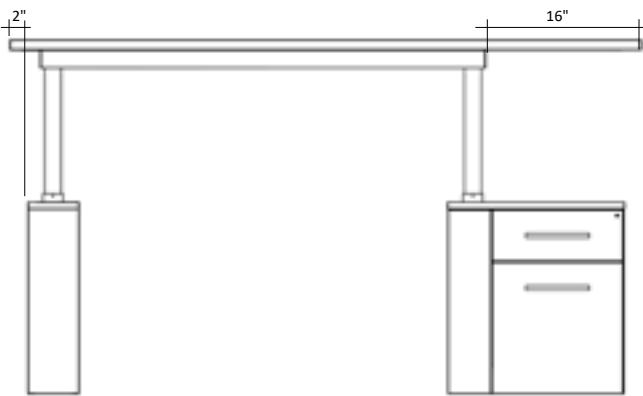

pedestal orientation

Combination pedestal recessed under the worksurface.

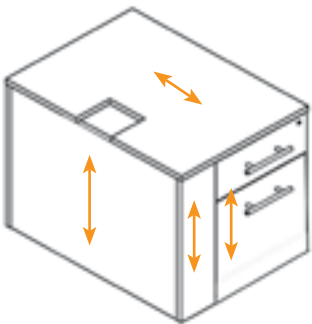

Combination pedestal outset under the worksurface. This configuration uses the same size modesty panels as a configuration with two base shrouds.

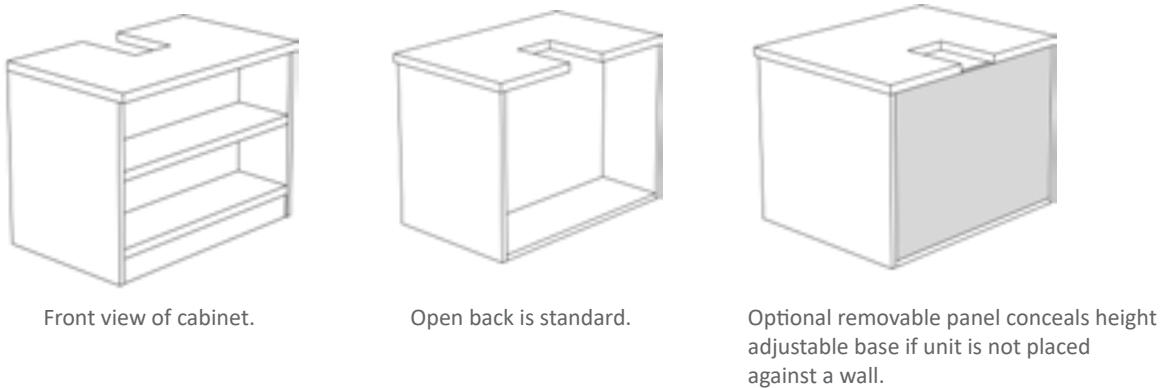

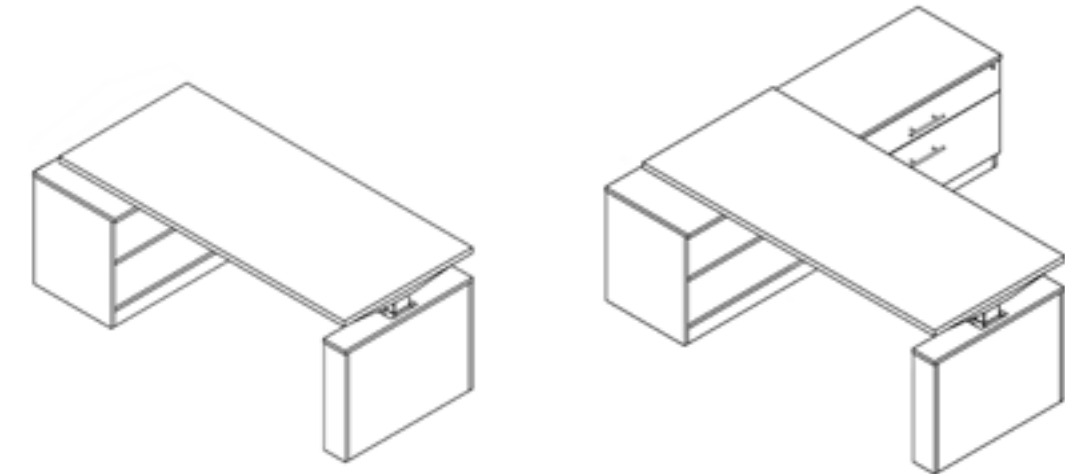

Combination pedestal outset under the worksurface, with over sized worksurface with 16" maximum overhang (Hover Lift Base only).

peninsula cabinets

Peninsula cabinets provide a clean aesthetic with an efficient footprint. The open storage cabinets provide easy access to items under the desk.

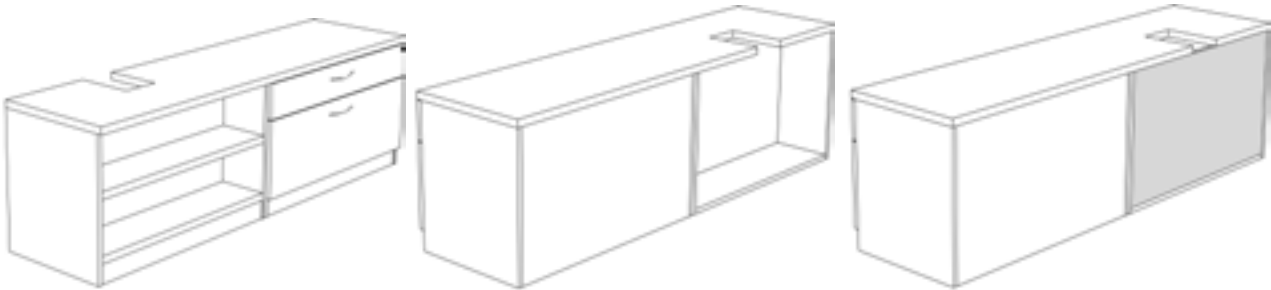

dimensions

Open storage cabinet is available in two widths, 30" and 36", and two depths. 19" and 25". The usable space on the 19" deep cabinet is 8-3/4" and on the 25" deep cabinet is 14-3/4".

open storage & box/lateral credenza cabinet

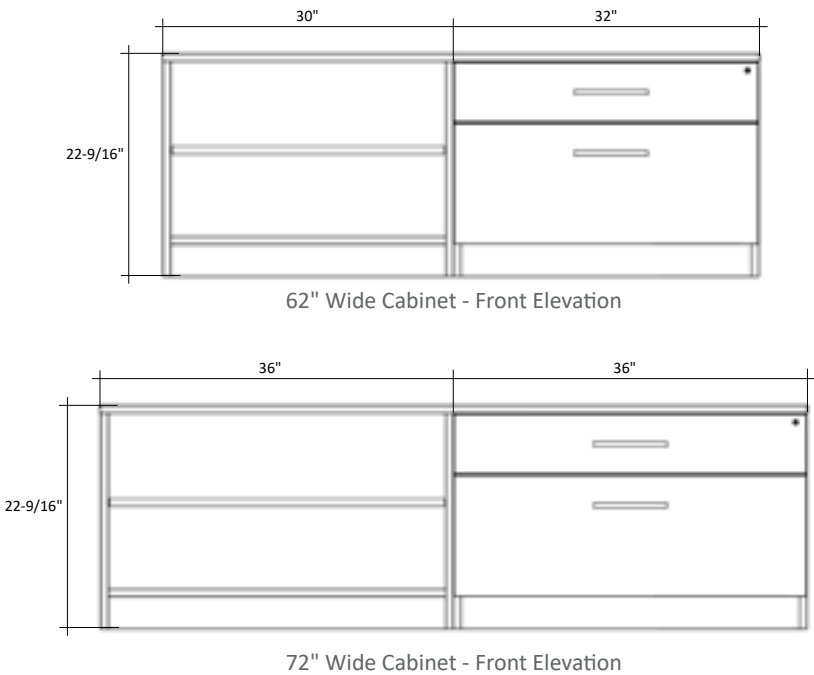

The credenza cabinet provides box/lateral file low storage on one side and open storage to house the height adjustable leg on the other side. The leg cutout is always centered on the open storage side of the credenza. Handedness is determined by which leg of the base is located inside the cabinet.

Right model shown. Open back is standard. Optional removable panel conceals height adjustable base if unit is not placed against a wall.

dimensions

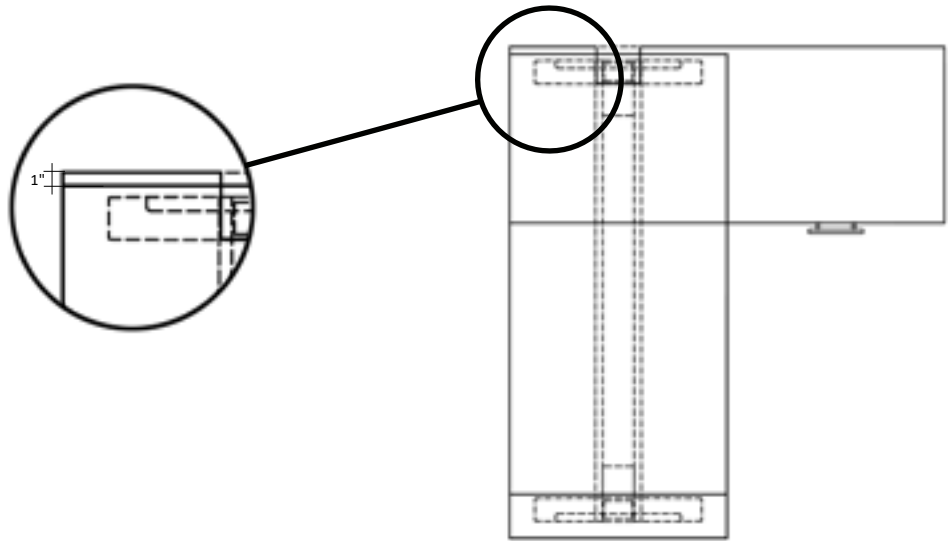

Credenza cabinet is available in two widths, 62" and 72", and two depths. 19" and 25".

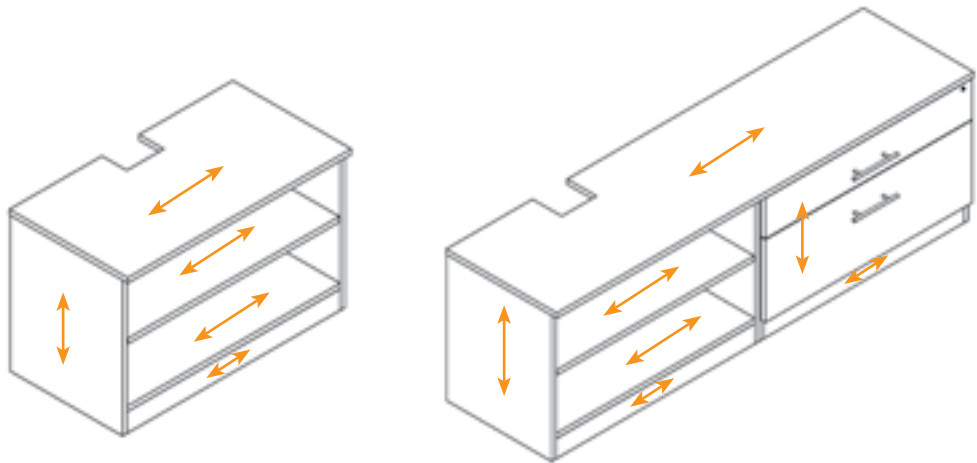

peninsula cabinets

wall clearance

If open storage cabinet or credenza cabinet are to be placed against a wall, the cabinet should be placed to extend past the worksurface by a minimum of 1" to avoid pinch points.

grain direction

stationary returns, bridges and credenzas

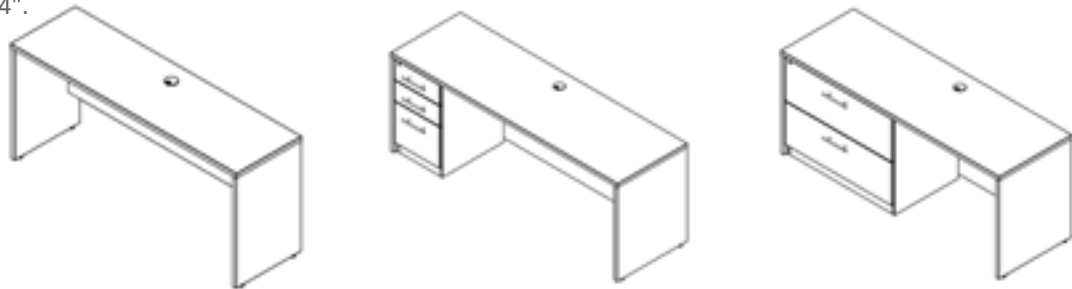

stationary returns and bridges

Ascend returns and bridges have an additional 6" panel support to allow it to be placed adjacent to the height adjustable desk. Available in two depths, 19" and 24".

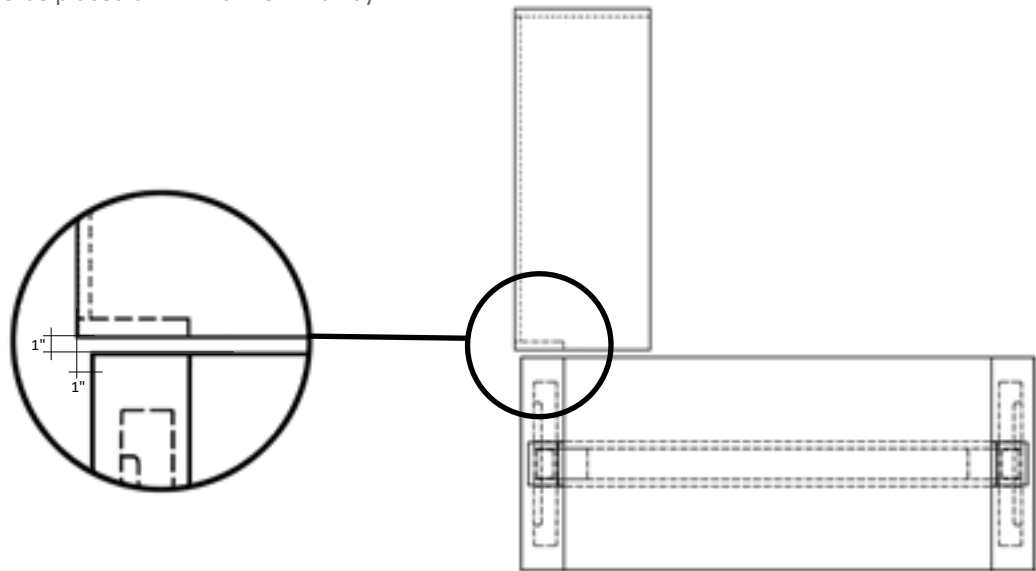

stationary credenzas

Any standard credenza from Convergence, Milano and SPX can be used with Ascend products. Available in two depths, 19" and 24".

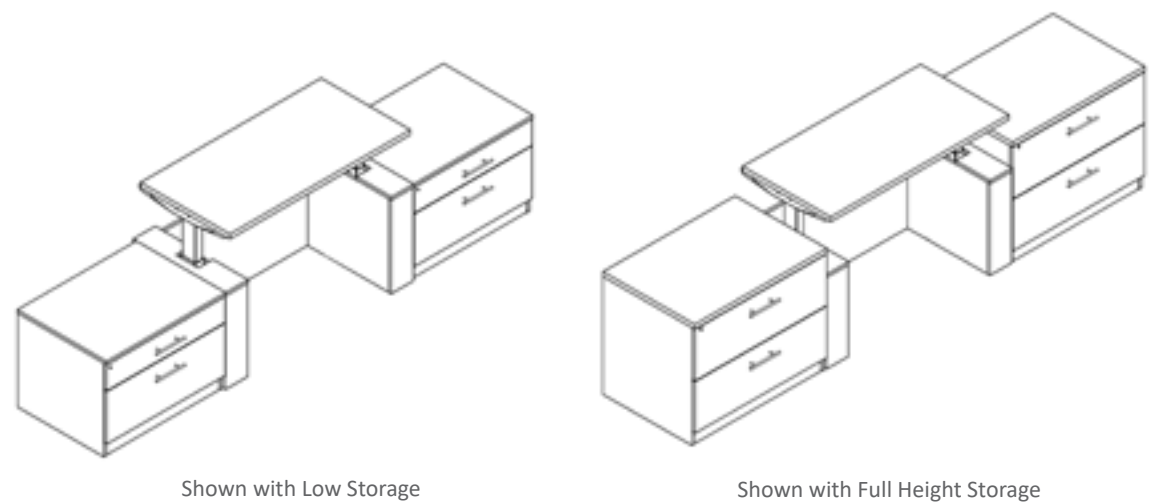

pinch points

If height adjustable base shrouds are to be placed against a wall the worksurface needs to be a minimum of 1" away from the wall to avoid pinch points. Any stationary furniture placed adjacent to the height adjustable desk should also be placed a minimum of 1" away.

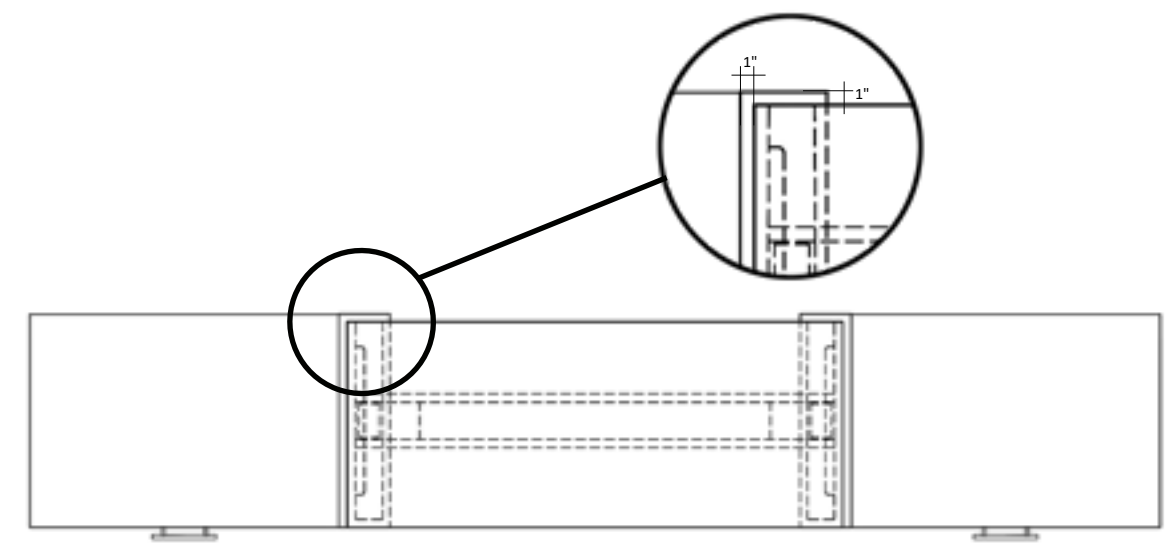

height adjustable returns, bridges and credenzas

Height adjustable returns, bridges and credenzas are intended for use against a wall and are only available with a 24" deep worksurface. Base shroud is 25" deep to allow for a 1" pinch point clearance. Storage units adjacent to the base shrouds can be specified as both low storage (shorter than 23") or can be full height (29" or higher).

pinch points

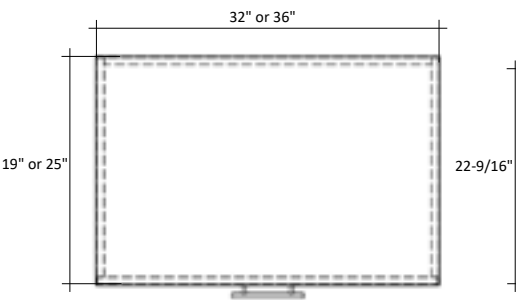

If height adjustable base shrouds are to be placed adjacent to any full height storage units, a minimum of 1" clearance needs to be maintained on the sides to prevent pinch points.

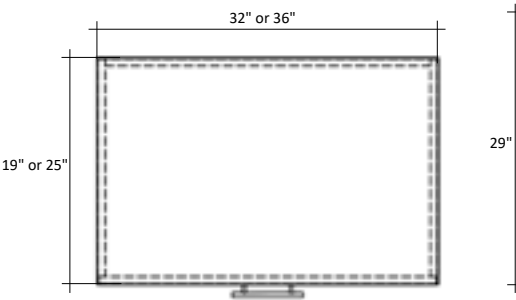

storage units

Ascend storage units are 25" deep to align with the 25" deep base shrouds. Available in low height box/lateral file (22-9/16" high) or full height lateral/lateral file (29" high). Storage units are available in two widths, 32" and 36".

box/lateral file

full height hanging modesty heights

Two stage and three stage bases have different measurements when they are fully lowered to their shortest height. Our "full height" hanging modesty panels are designed to not collide with the floor when used with any bases listed in this catalog, but please be aware the appearance of the desk may vary slightly if multiple base styles are used on the same project.

modesty panel options

hanging modesty panel length

All hanging modesty panels must be undersized in length by a minimum of 1" to avoid pinch points.

desk shells

Ascend Desk Shells achieve the look of casegoods furniture by simply surrounding the height adjustable base. They may be appropriate for a wider range of bases than shroud and modesty combinations as the leg placement is unrestricted. Desk Shells are the recommended solution when using 3-legged height adjustable bases. Due to the height of the Desk Shell, most bases will need to be pulled out of the shell to be reset.

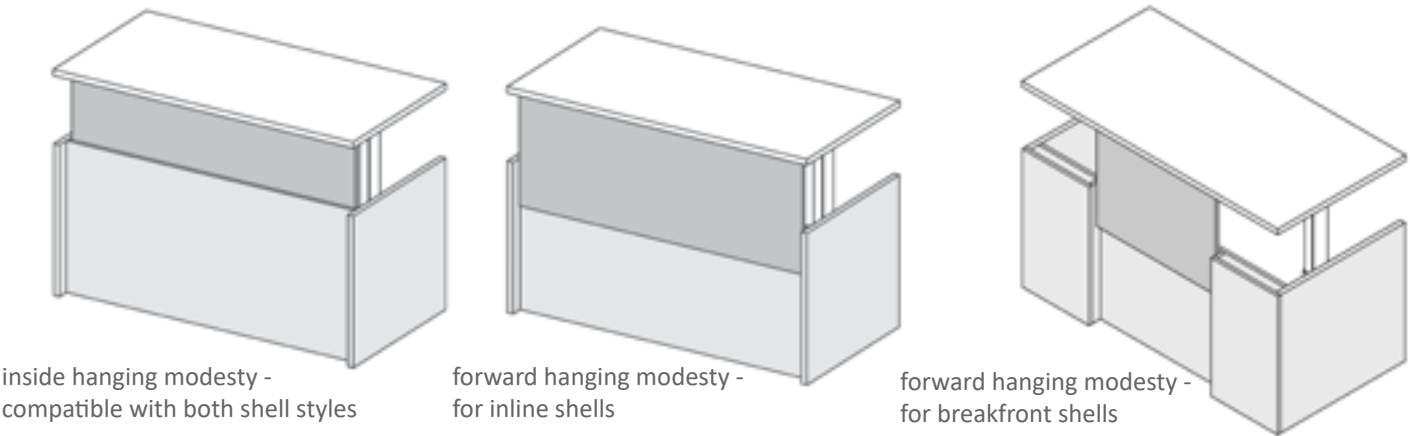

inline desk shell

The Ascend Inline Desk Shell is stylistically similar to the Convergence casegoods series.

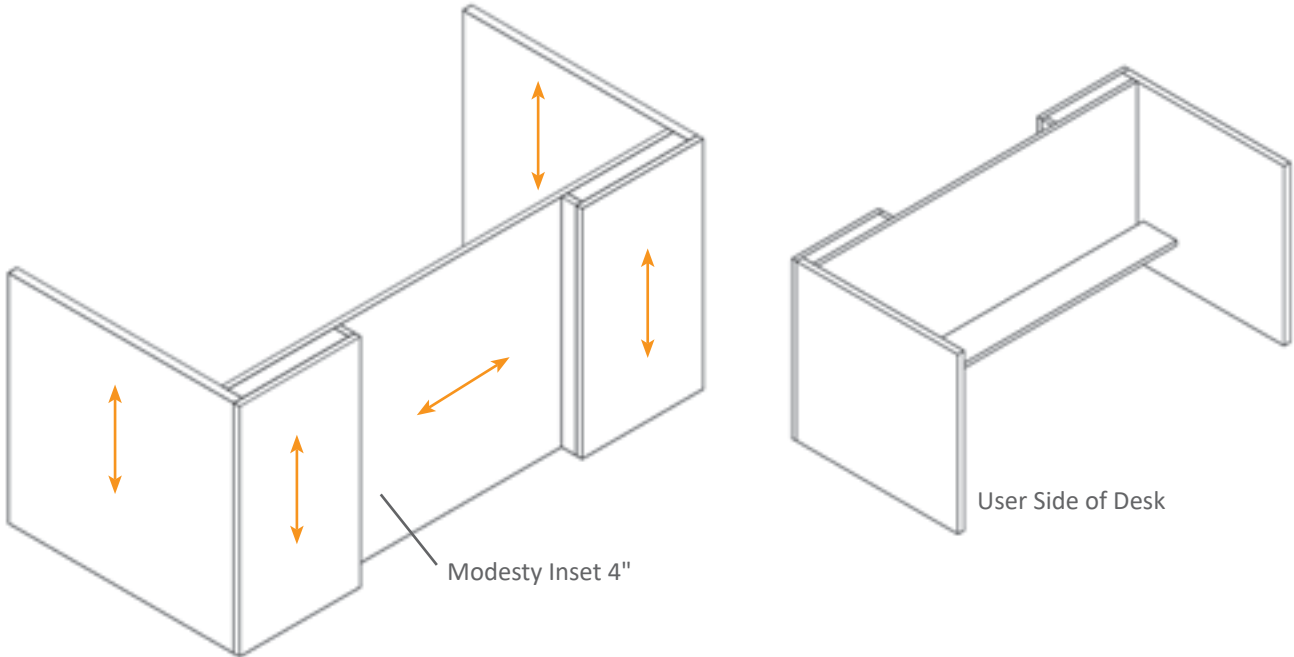

hanging modesty panel options for desk shells

There are multiple hanging modesty options specifically sized to be paired with desk shells. A modesty panel mounted in front of the desk shell may need to be removed if the height adjustable base needs to be reset as this will require pulling the base outside of the shell to lower it completely in most cases.

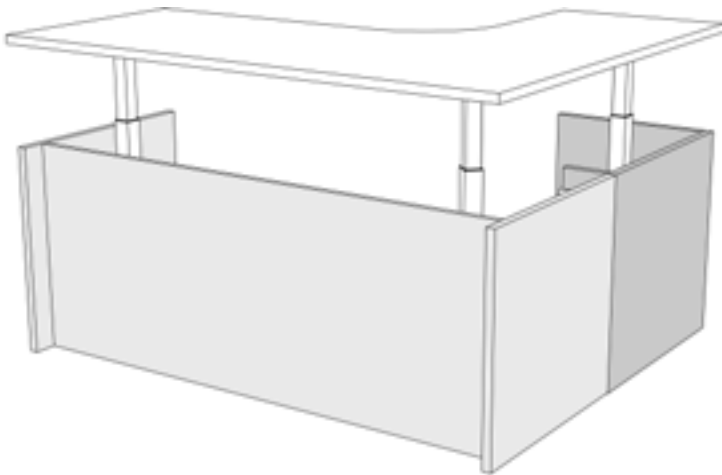

breakfront desk shell

The Ascend Breakfront Desk Shell is stylistically similar to the SPX casegoods series, or the Milano Series when paired with a top that has a reveal.

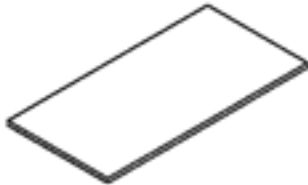

return shells

A Return Shell is available to connect to either style of Ascend Desk Shell to completely enclose a 3-legged base.

Ribbon

details

- Premium casegood series with curved metal accent leg. Made in the USA.
- 1-1/8" thick thermofuse laminate (TFL) tops and end panels for strength and durability.
- 2mm PVC edgebanding.
- Combine up to two finishes on a single unit at no additional charge. See website for laminate finish options.
- Wood grain on tops runs from side to side on returns and bridges, up to 60", to match desk and credenza tops. Grain runs horizontally on modesty panels. Due to the nature of woodgrain materials - grain pattern may not align on adjoining tops or drawer fronts and doors on the same unit.
- Drawers with 46mm height ball bearing extension slides for smooth and instant access to all contents.
- Maple print drawer interiors standard. Solid wood drawer interior upgrade available.
- Core removable face locks standard on pedestals, lateral files and file centers. Locks optional on all units with hinged doors, such as hutches and storage cabinets.
- Hardware pulls standard on all drawers. A collection specific Ribbon pull is available in polished nickel and black.
- Adjustable leveling glides on all units.
- Custom sizes and configurations may be available. Please contact quoting department for pricing.

Ribbon Collection

freestanding desk

The freestanding Ribbon desk is available with both the classic Ribbon and hairpin leg style. The rectangular top shape can connect to returns or bridges to form L or U shape configurations.

cantilevering desk

The cantilevering desk style is supported on one side by low storage and can be used to create multi-level solutions.

conference tables

The classic Ribbon leg can be used to support conference tables from 72"-240".

small tables and storage

The hairpin Ribbon leg is well suited for smaller tables, and Ribbon storage options allow for a consistent style across the entire office.
